Dear

I was unable to attribute some of the coins you sent for attribution, but I took a lot of notes that shows some share dies with others you have. I feel they may be unlisted varieties that should be inspected by Leroy Van Allen for possible new listing. I would describe them to him as follows:

1881-O (PCGS ...288). Same obverse as VAM 71 (see markers in RTY, dbl. right 1). Reverse is a late die state of a different reverse die. No doubling on legend on left side of coin which should still be visible, even with this amount of die wear. Mint mark looks to be in same position as VAM 71 reverse, though. I can't find any die cracks or other markers of note to help separate it from VAM 71.

1881-O (PCGS ...281). Same obverse as VAM 64 with doubled cap top and scratches on forehead. Reverse matches that of VAM 20 based on polishing pattern in wing-neck gap. VAM 64 show no markers in this area.

1881-O (PCGS ...320). Same reverse as VAM 28.2, different obverse with no doubling of the profile.

1881-O (PCGS ...289, 315). Also same reverse as VAM 20, but different obverse than those that have been called VAM 20. Strong doubling on the first 8 easily visible on coin 315, which actually matches text description for VAM 20. A pair of short gouges off the top of the upper cotton leaf on both coins, as well as matching scratches in RTY. These also have scratches on Liberty's forehead similar to what is mentioned for VAM 64. Either these are VAM 20 and the others you have (two in this submission and #8350 from January 2015) aren't, or these are new ones

If you do send these coins to Leroy for attribution, you can return them to me with a copy of his description and this letter I will label them at no charge other than return shipping. For instructions for sending Leroy coins, refer to this page on VAMWorld: <http://www.vamworld.com/Guidelines+for+Die+Varieties>. Leroy charges \$5 per coin plus return postage. You should include a copy of this letter and refer to my description. Where I mention differences with other coins, it would help to send these coins along for comparison to the subject coin. If you have multiple specimens from the same dies, sending an extra will also help with examination.

Best regards,
