I was unable to attribute three of the coins you sent for attribution. I feel these may represent two unlisted varieties that should be inspected by Leroy Van Allen for possible new listing. I would describe them to him as follows:

1881-O. (PCGS 2989). Same reverse as VAM 56, with horizontal line in wing-neck gap. Different obverse has doubled profile, large patch of circular scribbling on cheek, chip in first 8.

1881-O. (PCGS 3834, 6431). These are the same die pair as each other. Pitting on eagle, including a raised mark (pitting clump) between the eagle's left wing and body, similar to that on VAM 34A on the opposite wing. Doubling on Phrygian cap, forehead, and at least UN of UNUM as described on VAM 39. No notch on right 1. I don't have the VAM 39 discovery coin, so I can't compare.

If you do send this coin to Leroy for attribution, you can return it to me with a copy of his description and this letter I will label it at no charge other than return shipping. For instructions for sending Leroy coins, refer to this page on VAMWorld: <http://www.vamworld.com/Guidelines+for+Die+Varieties>. Leroy charges \$15 for the first 3 coins, \$5 for each additional coin, plus return postage. You should include a copy of this letter and refer to my description. Where I mention differences with other coins, it would help to send these coins along for comparison to the subject coin.

Best regards,

A handwritten signature in black ink, appearing to read 'John Baumgart', written over the typed name.
