Dear Robert:

I was unable to attribute some of the coins you sent for attribution, but I took a lot of notes that shows some share dies with others you have. I feel they may be unlisted varieties that should be inspected by Leroy Van Allen for possible new listing. I would describe them to him as follows:

1881-O (PCGS ...7358). Same as coins Leroy returned last time as "VAM?" (PCGS 1721, 7333). Pitting on cheek left of ear. Doubling on 18 clearer than on other two coin. I would submit this with at least one of the other two coins so that he can be sure to get a good look at the markers.

1881-O (PCGS ...2926). Same reverse as VAMs 52, 66, 1, and 19 (in that order), but later die stage, as noted by advanced cracks through left wreath eagle's left wingtip and overall die wear. Obverse portrait slightly textured, first 1 doubled bottom of flag, 1st 8 doubled on bottom and upper right inside of lower loop. Two vertical marks at hairline just left of ear also appear on a coin I've called VAM 8. Die cracks on obverse not a match for other dies paired with this reverse. Leroy might like to look at all 5 of the coins in this sequence to verify the emission sequence. The common marker on the reverse is the pitting in the wing-neck gap.

1881-O (PCGS ...6730). Same reverse as VAM 11. Different obverse – doubled profile, cap top. Die chip on the lower edge of the upper eyelid in the middle.

If you do send these coins to Leroy for attribution, you can return them to me with a copy of his description and this letter I will label them at no charge other than return shipping. For instructions for sending Leroy coins, refer to this page on VAMWorld: <http://www.vamworld.com/Guidelines+for+Die+Varieties>. Leroy charges \$5 per coin plus return postage. You should include a copy of this letter and refer to my description. Where I mention differences with other coins, it would help to send these coins along for comparison to the subject coin. If you have multiple specimens from the same dies, sending an extra will also help with examination.

Best regards,

John Baumgart
